

CONFERENCE TABLES - CARE INSTRUCTIONS

HPL

- To clean wipe with a damp cloth
- Do not clean with abrasive cleaners or scouring pads
- Clean spillages with neutral detergent diluted in warm water
- Never use sharp objects such as knives directly on the surface of HPL
- Use a protective pad underneath hot objects or ovenware

MATT BLACK, MILD STEEL LEGS

- Epoxy powdercoat is a durable finish, which requires gentle cleaning to maintain
- Clean with stainless steel cleaner and a clean cloth
- Wipe in the direction of the grain
- We recommend 3M Stainless Steel Cleaner and Polish

STORAGE

- Be sure to store your tops on their storage trolley to ensure they are not scratched nor damaged between uses
- If a trolley is not available, be sure to insert cloth, bubble wrap, styrofoam or similar between tops to avoid metal locators scratching surfaces
